Overview Scorecard Updates 11

Give your embedded canvas better display and interactivity.

Theme: [Adwaita](#) (title bar). Other plugin: [Advanced Canvas](#).

strongly support including this feature as a built-in feature. Visit [here](#) to give your support.

Features

- Give embedded canvas the same look as canvas view.
- Navigate using panning and zooming to move across the canvas.
- Adjust the height of the embedded canvas in the note.
- Work on both page preview and canvas.
- Display embedded canvas on exported PDF.
- Support [Advanced Canvas](#) plugin.

Installation

Show more

Related plugins

Image Context Menus

Image context menus (mostly on right click): Copy to clipboard, Open in default app, Show in system explorer, Reveal file in navigation, Open in new tab.

Simple CanvaSearch

Quickly fuzzysearch notes, cards and their content and shift focus to them within the currently opened canvas.

Notebook Navigator

A better file browser and calendar inspired by Apple Notes, Bear, Evernote and Day One.

Homepage

Open a note, base, or workspace on startup, or set it for quick access later.

Recent Files

Breadcrumbs

Visualise the hierarchy of your vault using a breadcrumb trail or matrix view.

Advanced Canvas

Supercharge your canvas experience. Create presentations, flowcharts and more.

Share Note

Instantly share/publish a note, with the full theme and content exactly like you see in Obsidian. Data is shared encrypted by default, and only you and the person you send it to have the key.

Vertical Tabs

Offer an alternative view that displays open tabs vertically, allowing users to group and organize tabs for a better navigation experience.

TagFolder

Show tags as folder.
